

O'Grady Drama Australia

Workbook Primary

Workbook 3

Ages 5 – 12

Draw your
family around
the campfire.

Workbook Tips & Hints

- Where you see a busy bee  there is a section of the workbook to complete!
- The helping hand  indicate that you may need the help of an older sibling or adult.
- This workbook could be used in conjunction with a real tent being set up inside or in the backyard. If you don't have a tent (or a beach sunshade) you could make a tent out of some blankets and the clothes line or use the dining table and drape a sheet across it etc.

Activity 1 – Camping Shopping List!

Write down as many things as you can think of that you might need to take camping!

Sleeping Bag & Pillow		
7 Favourite Stuffed Toys.		

Activity 2 – Mini Indoor Adventure

“Camping”

This mini indoor adventure has been designed for the whole family to enjoy together (including parents)!

These tasks require you to use your imagination! You do not need real items (such as a map, or marshmallows on a stick) to act them out!

Use full sentences, big interesting actions and levels while you complete the following tasks:

- Pack a small backpack with essentials for a camping trip - toys, snacks, water bottle etc.
- Get in the car - use chairs or sit on the floor.
- Play a couple of car games – eye spy, a sing along.
- Unpack the car and carry the (pretend) equipment to the campsite. Then realise that you have forgotten to pack something! What did you forget?

- Set the tent up, however, instructions don't make any sense! Then you realise they are upside down!
- Pretend to hammer in some pegs, you accidentally hit your thumb, jump up and down exclaiming how much it hurts!

- Sit around the campfire. Tell some silly ghost stories. You then see a shadow on the wall. You all jump up in fright, only to realise it's a cat!! Phew what a relief!

- Whilst sitting around the campfire, cook some marshmallows on sticks over the fire. Then the stick catches on fire - jump up and stamp the fire out with your feet. Phew!

- Fish at the lake near your campsite. Throw the line in, then suddenly a strong tug comes from the end of the line. Excitedly, you reel the catch in slowly with lots of effort. However, when the end of the line appears, it isn't a fish! What is it? For example, an old boot or treasure chest. This can be repeated several times.

- Hike through the woods near your campsite (this could be done in the backyard if your tent is inside the house). After hiking for several minutes, you realise you are lost! Oh No! What do you do?
- What other camping activities can you do?

Activity 3 – Design a Tent!

Design a tent anyway you like! You might like to add several rooms, make it a double storey tent or perhaps it is made of chocolate!
