## *Workbook Youth Theatre*

Workbook 2

Ages 12+

## Journal Writing

Your journal tasks for this week are to:

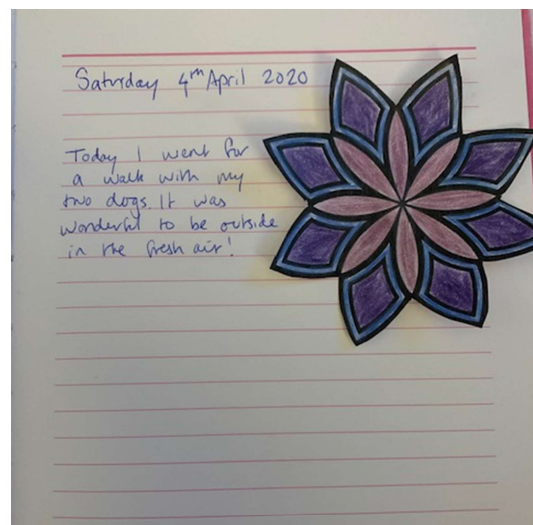

1. Write a sentence each day about how you feel.
2. Write about an activity you complete each day (walking the dog, cooking, cleaning, watching a movie etc).
3. Add some colour to your journal - see the photos below.

Although it might not feel like it, we are experiencing a major historical event. In fact, a one in one hundred-year event. You will look back on your journal in years to come and be glad you have a valuable record of the day-to-day events. Your children and their children will be most interested. Be a part of history!

## Jazz Up Your Journal – Adding Some Colour

The colouring-in component of each workbook can be used to Jazz Up Your Journal. Try colouring a different section of the sheets each day. Use colours that convey how you are feeling. Cut that section out and glue it next to the writing tasks.

If you don't have a printer, you can create your own shapes to glue in, or draw pictures/shapes directly into your journal.

## Writing a Letter

This week you are tasked with writing a letter to your family. This letter will then be used in the next workbook to create a script. You can choose one of the 3 options below for your letter or one of your own choosing.

---

Dear.....

I hope everyone is well. I'm writing to tell you that I've decided to:

- join the circus
- become a professional handball player
- move to a foreign country

Explain, in detail, the reasons for your proposed action.

Sincerely,

---

Once you have written the letter, practise reading it out loud and then perform it for a family member (or family pet/stuffed toy). Remember to keep this letter as it will be used in the next workbook.

## Letters of Value

What numbers do the letters represent? **Hint:** They are numbers 1-5.
